

## Department of Defense

## 215.404-2

under dual or multiple source programs:

(A) The determination of adequate price competition must be made on a case-by-case basis. Even when adequate price competition exists, in certain cases it may be appropriate to obtain additional information to assist in price analysis.

(B) Adequate price competition normally exists when—

(i) Prices are solicited across a full range of step quantities, normally including a 0-100 percent split, from at least two offerors that are individually capable of producing the full quantity; and

(ii) The reasonableness of all prices awarded is clearly established on the basis of price analysis (see FAR 15.404-1(b)).

(4) *Waivers.* (A) DoD has waived the requirement for submission of cost or pricing data for the Canadian Commercial Corporation and its subcontractors.

(B) DoD has waived cost or pricing data requirements for nonprofit organizations (including education institutions) on cost-reimbursement-no-fee contracts. The contracting officer shall require—

(1) Submission of information other than cost or pricing data to the extent necessary to determine reasonableness and cost realism; and

(2) Cost or pricing data from subcontractors that are not nonprofit organizations when the subcontractor's proposal exceeds the cost or pricing data threshold at FAR 15.403-4(a)(1).

### **215.403-5 Instructions for submission of cost or pricing data or information other than cost or pricing data.**

(b) When the solicitation requires contractor compliance with the Contractors Cost Data Reporting (CCDR) System (Army—AMCP 715-8, Navy—NAV PUB P-5241, and Air Force—AFMCP 800-15), require the contractor to submit DD Form 1921 or 1921-1 with its pricing proposal.

### **215.404 Proposal analysis.**

#### **215.404-1 Proposal analysis techniques.**

(a) *General.* For spare parts or support equipment, perform an analysis of—

(i) Those line items where the proposed price exceeds by 25 percent or more the lowest price the Government has paid within the most recent 12-month period based on reasonably available information;

(ii) Those line items where a comparison of the item description and the proposal price indicates a potential for overpricing;

(iii) Significant high-dollar-value items. If there are no obvious high-dollar-value items, include an analysis of a random sample of items; and

(iv) A random sample of the remaining low-dollar value items. Sample size may be determined by subjective judgment, e.g., experience with the offeror and the reliability of its estimating and accounting systems.

(d) *Cost realism analysis.* The contracting officer should determine what information other than cost or pricing data is necessary for the cost realism analysis during acquisition planning and development of the solicitation. Unless such information is available from sources other than the offerors (see FAR 15.402(a)(2)), the contracting officer will need to request data from the offerors. The contracting officer—

(i) Shall request only necessary data; and

(ii) May not request submission of cost or pricing data.

#### **215.404-2 Information to support proposal analysis.**

(a) *Field pricing assistance.* (i) The contracting officer should consider requesting field pricing assistance for—

(A) Fixed-price proposals exceeding the cost or pricing data threshold;

(B) Cost-type proposals exceeding the cost or pricing data threshold from offerors with significant estimating system deficiencies (see 215.407-5-70(a)(4) and (c)(2)(i)); or

(C) Cost-type proposals exceeding \$10 million from offerors without significant estimating system deficiencies.
